Please refer to the formulary when prescribing for CitrusCaid members. This guide does not contain a complete list of drugs; rather it lists the preferred drugs within the most commonly prescribed therapeutic categories. The goal of the formulary is to provide cost-effective pharmacotherapy choices based on prospective, concurrent and retrospective review of medication therapies and utilization. Products that are CAPITALIZED are brand name products. Products in lower case are generics and are generally preferred before brand name products. In order to obtain prior authorization, please contact NPS at 1-800-546-5677.

KEY:

*	age restrictions apply
PA	requires prior authorization
ST	requires trial of first step product
QL	daily dosage limits apply
